

# ADVANCE PRODUCT QUALITY PLANNING

Date: 19 April 2021

Time: 9.00 am - 5.00 pm

Venue: DreamEDGE, Cyberjaya

Code: EK05

## OVERVIEW

The Advanced Product Quality Planning (APQP) course provides awareness and understanding on a structured method of defining and establishing the necessary steps to ensure the product satisfies the customer.

Although APQP is generally associated with the automotive industry, the quality planning processes in APQP can be applicable within all industries. The Quality-One APQP approach is considered to be Best-in-Class, because it is easily communicated to design teams and suppliers.

## OBJECTIVE

- To introduce APQP as a programme management tool and how it relates to automotive quality standard.
- To expose the importance of adopting APQP as a methodology to support current and future work/project.

## METHODOLOGY

- Training material : English language
- Lecture : Malay and/or English language
- Activities
- Q&A

## LEARNING OUTCOME

- At the end of the training, participant will be able to:
- Explain and implement APQP.
  - Learn the importance of adopting APQP as methodology to support current and future work/project.

## TARGET

- Engineer and others who are involved in the introduction of new product and contribute to the APQP from both manufacturing and service sector.

## COURSE CONTENT

- APQP Fundamental
- APQP vs Project Management
- APQP Reporting
- APQP Implementations
