

CATIA FUNDAMENTAL

Date: 4-8 October 2021

Time: 9.00 am - 5.00 pm

Venue: DreamEDGE, Cyberjaya

Code: CA20

OVERVIEW

CATIA Fundamental focuses on fundamental topics in the most commonly used workbenches including Sketcher, Part Design, Assembly Design, Wireframe and Surface Design and Drating. This course focuses on solid modelling in CATIA V5 and also introduction to wireframe and surface modelling.

The training includes tutorials (participant will be guided by instructor) and exercises (self-training) for every chapter so that participant will have better understanding about the topic. The comprehensive design project enables participant to practice new skills by creating realistic part, assemblies and drawings. After completing the course, participant will be well prepared to work effectively on product design projects using CATIA software.

OBJECTIVE

- To introduce CATIA environment.
- To design the product by using CATIA software.
- To sketch 2D drawing.
- To design solid modelling.
- To design surface modelling.

LEARNING OUTCOME

- At the end of the training, participant will be able to:
- Familiarise with CATIA function for solid models, detail drawings and product assemblies.
 - Learn the flexibility of solid modelling and assembly tool as it can be applied in the real world of product development collaboration.

TARGET

- Design engineer
- Tooling engineer
- Manufacturing engineer
- Others needing to perform Wireframe & Surface design work in CATIA software

COURSE CONTENT

- Introduction to CATIA User Interface
- Sketcher
- Part Design
- Wireframe & Surface Design
- Assembly Design
- Generative Drating

METHODOLOGY

- Training material : English language
- Lecture : Malay and/or English language
- Software demonstration
- Activities
- Q&A
